

IPMC101 Series

DIN-Rail Mounting or Wall Mounting

2-port 100M Unmanaged Industrial PoE Fiber Converter

- Support 1 100M fiber port or SFP slot, and 1 100M PoE copper port
- The maximum power consumption of single port PoE is 30W
- PoE could power device over Ethernet, thus decreasing the cable connection of powered devices
- Input power voltage 48VDC
- Support $-40\sim 75^{\circ}\text{C}$ wide operating temperature range

Introduction

IPMC101 Series are 2-port 100M unmanaged industrial PoE fiber converters, and the PoE power supply is up to the protocol standard of IEEE 802.3af/at. This series have two products and provide 100M copper ports, fiber ports and PoE copper ports. They adopt DIN-Rail mounting or wall mounting, which can meet the requirements of different scenes.

The DIP switch could implement flow control, jumbo frames and LFP alarm. Hardware adopts fanless, low power consumption, wide temperature and voltage design and has passed rigorous industrial standard tests, which can suit for the industrial scene environment with harsh requirements for EMC. It can be widely used in smart grid, railway transportation, smart city, safe city, new energy, aerospace, intelligent manufacturing, military project and other industrial fields.
